SAFETY DATA SHEET
VALTTI PLUS BASE

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product name: VALTTI PLUS BASE
Product code: 0053535
Product description: Wood preservative. Retards moisture absorption as well as the spread of rot and blue stain.

1.2 Relevant identified uses of the substance or mixture and uses advised against
Recommended use: Painting work
Ready-to-use water based colourless wood preservative that penetrates into the substrate for outdoor use (use class 2 and 3) for consumer and professional use.
The product may be used only as wood preservative according to descriptions of technical data sheet and sales package.

1.3 Details of the supplier of the safety data sheet
Manufacturer or Distributor
Tikkurila Oyj
P.O. Box 53
FI-01301 VANTAA
FINLAND
Telephone +358 20 191 2000

e-mail address of person responsible for this SDS
Tikkurila Oyj, Product Safety,
e-mail: productsafety@tikkurila.com

1.4 Emergency telephone number
Telephone number: 112
(24h)
Supplier or Manufacturer
Tikkurila Oyj
Telephone number: +358 20 191 2000 Mon-Fri 8-16

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Product definition: Mixture
Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
Aquatic Chronic 3, H412
The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

2.2 Label elements
Signal word: No signal word.
Hazard statements: H412 - Harmful to aquatic life with long lasting effects.
Precautionary statements
General: P102 - Keep out of reach of children.
Prevention: P260 - Do not breathe mist/spray.
P273 - Avoid release to the environment.
Response: Not applicable.
Storage: Not applicable.
Disposal: P501 - Dispose of contents according to the local regulations for hazardous waste and recycle or dispose container in accordance with local regulations.

Supplemental label elements: Contains propiconazole (ISO), 1,2-benzisothiazol-3(2H)-one and 3-iodo-2-propynyl butylcarbamate. May produce an allergic reaction.

Wear protective gloves.

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Notes, if applicable, refer to Notes given in Annex VI of 1272/2008/EC.

SECTION 4: First aid measures

4.1 Description of first aid measures

General: In all cases of doubt, or when symptoms persist, seek medical attention. Show this safety data sheet or label to the doctor if possible.

Eye contact: Check for and remove any contact lenses. Immediately flush eyes with plenty of lukewarm water, keeping eyelids open. Continue to rinse for at least 10 minutes.

Inhalation: Remove to fresh air.

Skin contact: Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
Ingestion

If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious). If significant amounts have been swallowed or if symptoms persist, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

See Section 11 for more detailed information on health effects and symptoms.

Contains:
1,2-benzisothiazol-3(2H)-one
3-iodo-2-propynyl butylcarbamate
propiconazole
May produce an allergic reaction.

4.3 Indication of any immediate medical attention and special treatment needed

None.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media
Use an extinguishing agent suitable for the surrounding fire. Recommended: Alcohol resistant foam, CO₂, powders or water spray/mist.

Unsuitable extinguishing media
Do not use a direct water jet that could spread the fire.

5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture
This product is not classified as flammable. Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard.

Hazardous thermal decomposition products
When exposed to high temperatures, may produce hazardous decomposition products, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.

5.3 Advice for firefighters

Special protective actions for fire-fighters
Use water spray to keep fire-exposed containers cool. This material is hazardous to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

Special protective equipment for fire-fighters
Appropriate breathing apparatus may be required.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Refer to protective measures listed in sections 7 and 8.

6.2 Environmental precautions
Hazardous to aquatic environment. Do not allow to enter drains, water courses or soil.

6.3 Methods and materials for containment and cleaning up
Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Preferably clean with water or detergent. Avoid using solvents.

6.4 Reference to other sections
See Section 1 for emergency contact information.
See Section 13 for additional waste treatment information.
SECTION 7: Handling and storage

7.1 Precautions for safe handling:
Skin contact with the product and exposure to spray mist and vapor should be avoided. Avoid inhalation of dust from sanding. See Section 8 for information on appropriate personal protective equipment. Eating, drinking and smoking should be prohibited in areas where this material is handled and stored. In case of skin contact, wash skin with water and soap before eating and after work. Avoid release to the environment.

If you use the product outdoors, protect soil eg with plastic. Protect other surfaces and plants from splashes. To protect the organisms that live in water, the product and the treated wood is not to be used in the immediate vicinity of the water environment (rivers, lakes, etc.)

7.2 Conditions for safe storage, including any incompatibilities:
Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep away from food, drink and animal feeding stuffs. No smoking. Keep only in the original container. Keep container tightly closed. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Keep out of the reach of children. Recommended storage temperature is +5°C ...+25°C. Do not allow to freeze. Store in accordance with local regulations.

7.3 Specific end use(s):
None.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits
No exposure limit value known.

Recommended monitoring procedures:
If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

DNELs/DMELs
No DNELs/DMELs available.

PNECs
No PNECs available.

8.2 Exposure controls

Appropriate engineering controls
Provide adequate ventilation. Comply with the health and safety at work laws.

Individual protection measures

Eye/face protection:
Safety eyewear should be used when there is a likelihood of exposure. Use safety eyewear (EN166), especially during spray-application.

Hand protection:
Wear protective gloves. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.
Recommended glove material (EN374):
> 8 hours (breakthrough time): nitrile rubber
Not recommended: PVA gloves

Skin protection:
Wear appropriate personal protective clothing to prevent skin contact.

Respiratory protection:
If ventilation during spray-application is inadequate, use respirators with combination filter AP, gas/dust filter (EN405:2001). Wear a respirator with type P2 filter during sanding (EN149:2001). Be sure to use an approved/certified respirator or equivalent. Check that mask fits tightly and change filter regularly.
Environmental exposure controls: For information regarding environmental protection measures, please refer to section 13 for waste handling, section 7 for handling and storage and section 1.2 for relevant identified uses of the substance or mixture and uses advised against.

### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

**Appearance**
- Physical state: Liquid.
- Color: Clear.
- Odor: Mild.
- Odor threshold: Not relevant for the hazard assessment of the product.
- pH
- Melting point/freezing point: 0°C (water)
- Initial boiling point and boiling range: 100°C (water)
- Flash point: >100 °C
- Evaporation rate: Not relevant due the nature of the product.
- Flammability (solid, gas): Not applicable. Product is a liquid.
- Upper/lower flammability or explosive limits: No flammable ingredients present.
- Vapor pressure: 3,2 kPa [room temperature] (water)
- Vapor density: Not relevant for the hazard assessment of the product.
- Density: 1,02 g/cm³
- Solubility(ies): Miscible in water.
- Partition coefficient: n-octanol/water: Not available.
- Auto-ignition temperature: Not relevant due the nature of the product.
- Decomposition temperature: Not relevant for the hazard assessment of the product.
- Viscosity: Not relevant for the hazard assessment of the product.
- Explosive properties: No explosive ingredients present.
- Oxidizing properties: No oxidizing ingredients present.

#### 9.2 Other information

No additional information.

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

See Section 10.5.

#### 10.2 Chemical stability

Stable under recommended storage and handling conditions (see Section 7).

#### 10.3 Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

#### 10.4 Conditions to avoid

Avoid extreme heat and freezing.

#### 10.5 Incompatible materials

Keep away from the following materials to prevent strong exothermic reactions:
- oxidizing agents
- strong acids
- strong alkalis

#### 10.6 Hazardous decomposition products

When exposed to high temperatures, hazardous decomposition products may be produced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.
SECTION 11: Toxicological information

11.1 Information on toxicological effects

There is no testdata available on the product itself.
The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Long term exposure to spray mist may produce respiratory tract irritation. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

Not classified.

Irritation/Corrosion

Not classified.

Sensitization

The product is not classified as sensitizing by skin contact, but it contains following preservatives or other biocides which may produce an allergic reaction:
- 1,2-benzisothiazol-3(2H)-one
- 3-iodo-2-propynyl butylcarbamate
- propiconazole

Mutagenicity

Not classified.

Carcinogenicity

Not classified.

Reproductive toxicity

Not classified.

Teratogenicity

Not classified.

Specific target organ toxicity (single exposure)

Not classified.

Specific target organ toxicity (repeated exposure)

Not classified.

Aspiration hazard

Not classified.

SECTION 12: Ecological information

Ecological testing has not been conducted on this product.

Do not allow to enter drains, water courses or soil.

The product is classified as environmentally hazardous according to Regulation (EC) 1272/2008.

Harmful to aquatic life with long lasting effects.

### 12.4 Mobility in soil

- Soil/water partition coefficient (<em>K<sub>oc</sub></em>): Not available.
- Mobility: Not available.

### 12.5 Results of PBT and vPvB assessment

- **PBT**: Not applicable.
- **vPvB**: Not applicable.

### 12.6 Other adverse effects

- Not available.

### SECTION 13: Disposal considerations

#### 13.1 Waste treatment methods

**Product**

Methods of disposal: Remove as much product as possible from the tools before cleaning. Avoid spillage into drains, water systems and soil. Gather residues into waste containers. Any product remaining unused and dried paint waste must be disposed of as hazardous waste in accordance with local regulations.

**European waste catalogue (EWC)**

</tbody>
</table>

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.
Packaging
Methods of disposal: Empty packaging should be recycled or disposed of in accordance with national regulations.
Special precautions: No additional information.

SECTION 14: Transport information

This product is not regulated for carriage according to ADR/RID, IMDG, IATA.

<table>
<thead>
<tr>

</table>

14.6 Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
EU Regulation (EC) No. 1907/2006 (REACH)
Other EU regulations
Europe inventory: Not determined.
Biocidal products regulation: This product is a biocidal product as defined in EU Regulation 528/2012.

Please contact the supplier to learn about other countries where this product has been registered as wood preservative. See section 1 for contact information.

15.2 Chemical Safety Assessment: This product contains substances for which Chemical Safety Assessments are still required.

SECTION 16: Other information

Indicates information that has changed from previously issued version.

Abbreviations and acronyms:
ATE = Acute Toxicity Estimate
CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]
DMEL = Derived Minimal Effect Level
DNEL = Derived No Effect Level
EUH statement = CLP-specific Hazard statement
PBT = Persistent, Bioaccumulative and Toxic
PNEC = Predicted No Effect Concentration
RRN = REACH Registration Number  
vPvB = Very Persistent and Very Bioaccumulative  

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

**Classification**  
Aquatic Chronic 3, H412  

**Justification**  
Expert judgment  

**Full text of abbreviated H statements**

- H302: Harmful if swallowed.  
- H315: Causes skin irritation.  
- H317: May cause an allergic skin reaction.  
- H318: Causes serious eye damage.  
- H331: Toxic if inhaled.  
- H372: Causes damage to organs through prolonged or repeated exposure. (larynx)  
- H400: Very toxic to aquatic life.  
- H410: Very toxic to aquatic life with long lasting effects.  
- H411: Toxic to aquatic life with long lasting effects.  
- H412: Harmful to aquatic life with long lasting effects.  

**Full text of classifications**

- Acute Tox. 3, H331: ACUTE TOXICITY (inhalation) - Category 3  
- Acute Tox. 4, H302: ACUTE TOXICITY (oral) - Category 4  
- Aquatic Acute 1, H400: AQUATIC HAZARD (ACUTE) - Category 1  
- Aquatic Chronic 1, H410: AQUATIC HAZARD (LONG-TERM) - Category 1  
- Aquatic Chronic 2, H411: AQUATIC HAZARD (LONG-TERM) - Category 2  
- Aquatic Chronic 3, H412: AQUATIC HAZARD (LONG-TERM) - Category 3  
- Eye Dam. 1, H318: SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1  
- Skin Irrit. 2, H315: SKIN CORROSION/IRRITATION - Category 2  
- Skin Sens. 1, H317: SKIN SENSITIZATION - Category 1  
- STOT RE 1, H372: SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (larynx) - Category 1  

**Notice to reader**

This Safety Data Sheet is prepared in accordance with Annex II to Regulation (EC) No 1907/2006 (REACH). The information contained in this Safety Data Sheet is based on the present state of knowledge and current EU and national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
