Provide a readily-accessible eyewash facility. Comply with the health and safety at work laws.

Individual protection measures

Eye/face protection : Recommended: Wear eye or face protection.

Hand protection : Wear protective gloves. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Recommended: 4 - 8 hours (breakthrough time): PVC, nitrile rubber or neoprene. Not recommended: leather or Cotton product.

Skin protection : Wear suitable protective clothing.

Respiratory protection : Recommended: If ventilation is inadequate, use appropriate respirators with dust filter P2 (EN149:2001). Be sure to use an approved/certified respirator or equivalent. Check that mask fits tightly and change filter regularly.
