# TIKKURILA

**SAFETY DATA SHEET** 

COLOFILL HARDENER

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

Product name : COLOFILL HARDENER

Product description : Hardener.

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Painting work

## 1.3 Details of the supplier of the safety data sheet

Manufacturer or DistributorTikkurila OyjP.O. Box 53FI-01301 VANTAAFINLANDTelephone +358 20 191 2000e-mail address of personresponsible for this SDSresponsible for this SDSresponsible for this SDS

## 1.4 Emergency telephone number

Telephone number	:	112
-		(24h)

Supplier or Manufacturer

Telephone number: Tikkurila Oyj+358 20 191 2000 (GMT +2) Mon-Fri 8-16

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Acute Tox. 4, H302 Skin Corr. 1C, H314 Eye Dam. 1, H318 Skin Sens. 1, H317 STOT RE 2, H373 Aquatic Chronic 2, H411

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

## 2.2 Label elements

Hazard pictograms

Signal word

Date of issue/Date of revision	03.10.2022 Date of previous issue 03.07.2019. COLOFILL HARDENER
Hazard statements	<ul> <li>#302 - Harmful if swallowed.</li> <li>H314 - Causes severe skin burns and eye damage.</li> <li>H317 - May cause an allergic skin reaction.</li> <li>H373 - May cause damage to organs through prolonged or repeated exposure.</li> <li>H411 - Toxic to aquatic life with long lasting effects.</li> </ul>
Precautionary statements	
General	: Not applicable.
Prevention	<ul> <li>P261 - Avoid breathing vapor.</li> <li>P280 - Wear protective gloves/clothing and eye/face protection.</li> <li>P284 - In case of inadequate ventilation wear respiratory protection.</li> <li>P273 - Avoid release to the environment.</li> </ul>
Response	<ul> <li>F301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.</li> </ul>
Storage	: Not applicable.
Disposal	: Not applicable.
Hazardous ingredients	<ul> <li>Fatty acids, tall-oil, reaction products with tetraethylenepentamine methyleneoxide, polymer with benzenamine, hydrogenated tetraethylenepentamine</li> </ul>
Supplemental label elements	: Not applicable.

## 2.3 Other hazards

Other hazards which do : None known. not result in classification

## **SECTION 3: Composition/information on ingredients**

3.2 Mixtures	: Mixture			
			<b>Classification</b>	
Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Notes
atty acids, tall-oil, reaction products with tetraethylenepentamine	REACH #: 01-2119487006-38 EC: 273-201-6 CAS: 68953-36-6	≥10 - ≤21	Skin Corr. 1C, H314 Eye Dam. 1, H318 Skin Sens. 1A, H317 Aquatic Acute 1, H400 (M=1) Aquatic Chronic 2, H411	-

			See Section 16 for the full text of the H statements declared above.	

Notes, if applicable, refer to Notes given in Annex VI of 1272/2008/EC.

03.10.2022 Date of previous issue

COLOFILL HARDENER

03.07.2019.

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4: First aid measures

## 4.1 Description of first aid measures

General	<ul> <li>In all cases of doubt, or when symptoms persist, seek medical attention. Show this safety data sheet or label to the doctor if possible.</li> </ul>
Eye contact	: Check for and remove any contact lenses. Immediately flush eyes with plenty of lukewarm water, keeping eyelids open. Continue to rinse for at least 20 minutes. Get medical attention immediately. Continue rinsing until medical attention can be obtained.
Inhalation	: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention.
Skin contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. In case of chemical burns, get medical attention as soon as possible.
Ingestion	: If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Remove to fresh air and keep at rest in a position comfortable for breathing. Do NOT induce vomiting.

## 4.2 Most important symptoms and effects, both acute and delayed

#### Harmful if swallowed.

Causes severe skin burns and eye damage.

May cause damage to organs through prolonged or repeated exposure.

May cause an allergic skin reaction.

See Section 11 for more detailed information on health effects and symptoms.

## 4.3 Indication of any immediate medical attention and special treatment needed

None.

## **SECTION 5: Firefighting measures**

Do not use a direct water jet that could spread the fire.	
the substance or mixture	
• •	ke.
equatic organisms. Fire water contaminated with this material must be contain	
preathing apparatus (SCBA) with a full face-piece operated in positive pressure	9
۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲ ۲	<ul> <li>Use an extinguishing agent suitable for the surrounding fire. Recommended: Alcohol resistant foam, CO<sub>2</sub>, powders or water spray/mist.</li> <li>Do not use a direct water jet that could spread the fire.</li> <li>This product is not classified as flammable. Fire will produce dense black smo Exposure to decomposition products may cause a health hazard.</li> <li>When exposed to high temperatures, hazardous decomposition products may l produced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc aquatic organisms. Fire water contaminated with this material must be contain and prevented from being discharged to any waterway, sewer or drain.</li> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

03.10.2022 Date of previous issue

## **SECTION 6: Accidental release measures**

6.1 Personal precautions, protective equipment and emergency procedures	: Provide adequate ventilation. Do not breathe vapor or mist. Do not get in eyes or on skin. Put on appropriate personal protective equipment (see Section 8).
6.2 Environmental precautions	: Hazardous to aquatic environment. Do not allow to enter drains, water courses or soil.
6.3 Methods and materials for containment and cleaning up	: Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Preferably clean with a detergent. Avoid using solvents.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 13 for additional waste treatment information.

## **SECTION 7: Handling and storage**

7.1 Precautions for safe handling	: Avoid contact with skin and eyes. Avoid breathing vapor. Avoid inhalation of dust from sanding. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. See Section 8 for information on appropriate personal protective equipment. Eating, drinking and smoking should be prohibited in areas where this material is handled and stored. Wash hands before breaks and immediately after handling the product. Avoid release to the environment.
7.2 Conditions for safe storage, including any incompatibilities	: Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep container tightly closed. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Recommended storage temperature is +5°C+25°C. Store in accordance with local regulations.
7.3 Specific end use(s)	: None.

## **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

Occupational exposure limits No exposure limit value known.

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

DNELs/DMELs

No DNELs/DMELs available.

#### **PNECs**

No PNECs available.

#### 8.2 Exposure controls

#### Appropriate engineering controls

Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapours below the OEL, suitable respiratory protection must be worn (see Personal protection for both components). Provide a readily-accessible eyewash facility. Comply with the health and safety at work laws.

#### Individual protection measures

**Eye/face protection** : Wear eye/face protection (EN166).

Date of issue/Date of revision	03.10.2022 Date of previous issue 03.07.2019. COLOFILL HARDENER	
Hand protection	<ul> <li>Always wear approved protective gloves against chemicals. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.</li> <li>Recommended glove material (EN374):</li> <li>1 hour (breakthrough time): nitrile rubber, butyl rubber</li> <li>8 hours (breakthrough time): laminated foil Not recommended: PVC or natural rubber (latex) gloves</li> </ul>	,
Skin protection	: Wear suitable protective clothing.	
Respiratory protection	: If ventilation is inadequate, use respirator that will protect against dust/mist. Wea a half mask or full face respirator with gas and vapor filter A and dust filter P2 during sanding (EN140:1998, EN405:2001). During continuous and long-term we the use of motor-driven or air-fed respirators is recommended (EN12941:1998). Be sure to use an approved/certified respirator or equivalent. Check that mask fit tightly and change filter regularly.	ork
Environmental exposure controls	: For information regarding environmental protection measures, please refer to section 13 for waste handling, section 7 for handling and storage and section 1.2 for relevant identified uses of the substance or mixture and uses advised against	

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

· · · · · · · · · · · · · · · · · · ·		
Appearance		
Physical state	:	Liquid.
Color	;	Clear.
Odor	:	Strong.

COLOFILL HARDENER

SECTION 10: Stability and reactivity		
10.1 Reactivity	: See Section 10.5.	
10.2 Chemical stability	: Stable under recommended storage and handling conditions (see Section 7).	
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.	
10.4 Conditions to avoid	: Avoid extreme heat and freezing.	
10.5 Incompatible materials	: Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents strong acids strong alkalis	
10.6 Hazardous decomposition products	: When exposed to high temperatures, hazardous decomposition products may be produced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.	

## **SECTION 11: Toxicological information**

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

There is no testdata available on the product itself.

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Long term exposure causes irritation of respiratory system and mucous membranes of nose and throat. Prolonged contact can cause severe irritation or even burns. The liquid splashed in the eyes may cause irreversible damage. v

Acute	toxicity
Acute	UNICITY

Product/ingredient name	Result	Species	Dose	Exposure
methyleneoxide, polymer with benzenamine, hydrogenated	LD50 Oral	Rat	367 mg/kg	-
benzyl alcohol	LC50 Inhalation Dusts and mists	Rat	4.178 mg/l	4 hours
	LD50 Oral	Rat	1230 mg/kg	-
tetraethylenepentamine	LD50 Dermal	Rabbit	1260 mg/kg	-

## Harmful if swallowed.

## Irritation/Corrosion

Causes severe skin burns and eye damage.

#### Sensitization

May cause an allergic skin reaction.

The product contains sensitizing substances mentioned in sections 2 and 3.

**Mutagenicity** 

Not classified.

Carcinogenicity

Not classified.

**Reproductive toxicity** 

Not classified.

Teratogenicity

Not classified.

Specific target organ toxicity (single exposure)

Not classified.

Specific target organ toxicity (repeated exposure)

May cause damage to organs through prolonged or repeated exposure.

03.07.2019.

Aspiration hazard Not classified.

### 11.2 Information on other hazards

#### 11.2.1 Endocrine disrupting properties

Not applicable.

#### 11.2.2 Other information

Not available.

## **SECTION 12: Ecological information**

Ecological testing has not been conducted on this product. The product is classified as environmetally hazardous according to Regulation (EC) 1272/2008. Toxic to aquatic life with long lasting effects.

Do not allow to enter drains, water courses or soil.

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
Atty acids, tall-oil, reaction products with tetraethylenepentamine	Acute EC50 0.638 mg/l	Aquatic plants	72 hours
	Acute EC50 0.18 mg/l	Daphnia	48 hours
	Acute LC50 0.19 mg/l	Fish	96 hours
methyleneoxide, polymer with benzenamine, hydrogenated	EC50 15.4 mg/l	Daphnia	48 hours
	LC50 63 mg/l	Fish	96 hours
tetraethylenepentamine	EC50 6.8 mg/l	Algae	72 hours

## 12.2 Persistence and degradability

: No specific data.

Product/ingredient name	Test	Result	Dose	Inoculum
<b>te</b> traethylenepentamine	OECD 302A	17 % - Inherent - 84 days	-	-

coefficient (Koc)

: Not available.

: Not available.

## 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Mobility

Date of issue/Date of revision	03.10.2022 Date of previous issue	03.07.2019.	COLOFILL HARDENER
12.6 Endocrine disrupting properties	: Not applicable.		
12.7 Other adverse effects	: Not available.		
SECTION 13: Disposal considerations			

## 13.1 Waste treatment methods

#### Product

Methods of disposal

: Gather residues into waste containers. Liquid residue and cleaning liquids are hazardous waste and must not be emptied into drains or sewage system, but handled in accordance with national regulations. Product residues should be left at special companies which have permission for gathering this kind of wastes.

#### European waste catalogue (EWC)

Waste code	Waste designation
08 01 11*	waste paint and varnish containing organic solvents or other hazardous substances

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.

## Packaging

Methods of disposal

: Empty packaging should be disposed of in accordance with national regulations.

Special precautions

: **Note!** The ready for use mixture of paint and hardener generates much heat. Allow the remainder of the mixture to harden in a safe place, e.g. in the open.

## Notice to reader

This Safety Data Sheet is prepared in accordance with Annex II (EU) No 878/2020 to Regulation (EC) No 1907/2006 (REACH). The information contained in this Safety Data Sheet is based on the present state of knowledge and current EU and national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
