SAFETY DATA SHEET

YKI AITOKIVI

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

**Product name** 

: YKI AITOKIVI

**Product description** : Waterborne coating containing genuine stone granulate.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Painting work

#### 1.3 Details of the supplier of the safety data sheet

Manufacturer or DistributorTikkurila OyjP.O. Box 53FI-01301 VANTAAFINLANDTelephone +358 20 191 2000e-mail address of personresponsible for this SDSProduct Safety,<br/>e-mail: productsafety@tikkurila.com

#### 1.4 Emergency telephone number

Telephone number	:	112
-		(24h)

Supplier or Manufacturer

Telephone number: Tikkurila Oyj+358 20 191 2000 (GMT +2) Mon-Fri 8-16

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Warning

2

Skin Sens. 1, H317

Aquatic Chronic 2, H411

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

#### 2.2 Label elements

Hazard pictograms

Signal word Hazard statements

: ₩317 - May cause an allergic skin reaction. H411 - Toxic to aquatic life with long lasting effects.

**Precautionary statements** 

Date of issue/Date of revision	10.02.2023 Date of previous issue 16.04.2018. YKI AITOKIVI
General	: ₱101 - If medical advice is needed, have product container or label at hand. P102 - Keep out of reach of children.
Prevention	<ul> <li>P261 - Avoid breathing mist/spray.</li> <li>P280 - Wear protective gloves.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P273 - Avoid release to the environment.</li> </ul>
Response	: F302 + P352 - IF ON SKIN: Wash with plenty of soap and water.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazardous ingredients	: 2-octyl-2H-isothiazol-3-one (OIT)
Supplemental label elements	<ul> <li>Contains small amounts of sensitizing substances: 1,2-benzisothiazol-3(2H)-one (BIT), reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H- isothiazol-3-one (3:1) (C(M)IT/MIT (3:1)).</li> </ul>
Treated articles	

This product contains a biocidal product for the preservation of the product during storage. Contains C(M)IT/MIT (3:1).

#### 2.3 Other hazards

Other hazards which do : None known. not result in classification

## **SECTION 3: Composition/information on ingredients**

			<b>Classification</b>	
Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Notes

Notes, if applicable, refer to Notes given in Annex VI of 1272/2008/EC. **Specific concentration limits and ATE-values** 

Date of issue/Date of revision

10.02.2023 Date of previous issue

YKI AITOKIVI

16.04.2018.

#### Ingredient name, Specific concentration limits, ATE value

√2-benzisothiazol-3(2H)-one (BIT) Skin Sens. 1, H317: C ≥ 0,05 %

reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) (C(M)IT/MIT (3:1)) Skin Corr. 1C, H314:  $C \ge 0,6 \%$ Skin Irrit. 2, H315: 0,06 %  $\le C < 0,6 \%$ Eye Dam. 1, H318:  $C \ge 0,6 \%$ Eye Irrit. 2, H319: 0,06 %  $\le C < 0,6 \%$ Skin Sens. 1A, H317:  $C \ge 0,0015 \%$ 

2-octyl-2H-isothiazol-3-one (OIT) Skin Sens. 1A, H317: C  $\ge$  0,0015 % Inhalation: ATE = 0.27 mg/L (dusts/mists) Dermal: ATE = 311 mg/kg bw Oral: ATE = 125 mg/kg bw

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General	: In all cases of doubt, or when symptoms persist, seek medical attention. Show this safety data sheet or label to the doctor if possible.
Eye contact	: Check for and remove any contact lenses. Immediately flush eyes with plenty of lukewarm water, keeping eyelids open. Continue to rinse for at least 15 minutes. Get medical attention if symptoms occur.
Inhalation	: Remove to fresh air. Keep person warm and at rest.
Skin contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. Get medical attention if symptoms occur.
Ingestion	: Faccidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Remove to fresh air and keep at rest in a position comfortable for breathing. Do NOT induce vomiting.

#### 4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.

See Section 11 for more detailed information on health effects and symptoms.

#### 4.3 Indication of any immediate medical attention and special treatment needed

None.

media

# SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing media india Use an extinguishing agent suitable for the surrounding fire. Recommended: Alcohol resistant foam, CO2, powders or water spray/mist.

Unsuitable extinguishing	: Do not use a direct water jet that could spread the fire.
--------------------------	---

#### 5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture	: This product is not classified as flammable. Fire will produce dense black smoke Exposure to decomposition products may cause a health hazard.	).
Hazardous combustion products	: When exposed to high temperatures, hazardous decomposition products may be produced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.	

16.04.2018.

5.3 Advice for firefighters	
Special protective actions for fire-fighters	: Use water spray to keep fire-exposed containers cool. This material is hazardous to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>
<b>SECTION 6: Acciden</b>	tal release measures
6.1 Personal precautions, protective equipment and emergency procedures	: Provide adequate ventilation. Avoid breathing vapor or mist. Avoid direct skin contact with product. See Section 8 for information on appropriate personal protective equipment.

- 6.2 Environmental precautions
  6.3 Methods and materials for containment and cleaning up
  Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Preferably clean with water or detergent. Avoid using
- **6.4 Reference to other sections**: See Section 1 for emergency contact information. See Section 13 for additional waste treatment information.

solvents.

## **SECTION 7: Handling and storage**

7.1 Precautions for safe handling	:	Skin contact with the product and exposure to spray mist and vapor should be avoided. Avoid contact with skin and eyes. Avoid inhalation of dust from sanding. See Section 8 for information on appropriate personal protective equipment. Eating, drinking and smoking should be prohibited in areas where this material is handled and stored. Wash hands before breaks and immediately after handling the product. Avoid release to the environment.
7.2 Conditions for safe storage, including any incompatibilities	:	Store in original container protected from direct sunlight in a dry, cool and well- ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Recommended storage temperature is +5°C+25°C. Do not allow to freeze. Store in accordance with local regulations.
7.3 Specific end use(s)	:	None.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

 Occupational exposure limits

 No exposure limit value known.

 Recommended monitoring procedures

 :
 If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

**DNELs/DMELs** 

No DNELs/DMELs available.

#### **PNECs**

No PNECs available.

#### 8.2 Exposure controls

16.04.2018.

#### Appropriate engineering controls

Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapors below the OEL, suitable respiratory protection must be worn (see Personal protection). Comply with the health and safety at work laws.

#### Individual protection measures

Eye/face protection	: 🗾 se safety eyewear (EN166), especially during spray-application.
Hand protection	<ul> <li>Mways wear approved protective gloves against chemicals. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.</li> <li>Recommended glove material (EN374):</li> <li>&gt; 8 hours (breakthrough time): nitrile rubber Not recommended: PVA gloves</li> </ul>
Skin protection	: Wear suitable protective clothing.
Respiratory protection	: If ventilation during spray-application is inadequate, use respirators with combination filter AP, gas/dust filter (EN405:2001). Wear a half mask or full face respirator with gas and vapor filter A and dust filter P2 during sanding (EN140:1998, EN405:2001). During continuous and long-term work the use of motor-driven or airfed respirators is recommended (EN12941:1998). Be sure to use an approved/ certified respirator or equivalent. Check that mask fits tightly and change filter regularly.
Environmental exposure controls	: For information regarding environmental protection measures, please refer to section 13 for waste handling, section 7 for handling and storage and section 1.2 for relevant identified uses of the substance or mixture and uses advised against.

## **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

	the second se	
Appearance		
Physical state	Liquid.	
Color	Various	
Odor	Mild.	
Odor threshold	Not relevant for the hazard assessment of the pr	oduct.
рН	<b>7</b> to 9	
Melting point/freezing point	0°C (water)	
Initial boiling point and	100°C (water)	
boiling range		
Flash point	> 100 °C	
Evaporation rate	Not relevant due to the nature of the product.	
Flammability (solid, gas)	Not applicable. Product is a liquid.	
Upper/lower flammability or	No flammable ingredients present.	
explosive limits		
Vapor pressure	3.2 kPa [room temperature] (water)	
Vapor density	Not relevant for the hazard assessment of the pr	oduct.
Density	1.5 to 1.6 g/cm <sup>3</sup>	
Solubility(ies)	Miscible in water.	
Partition coefficient: n-octanol/ water	Not applicable.	
Auto-ignition temperature	Not relevant due to the nature of the product.	
Decomposition temperature	Not relevant for the hazard assessment of the pr	oduct.
Viscosity	Not relevant for the hazard assessment of the pr	
Explosive properties	No explosive ingredients present.	
Oxidizing properties	No oxidizing ingredients present.	
Particle characteristics		
Median particle size	Not applicable.	

10.02.2023 Date of previous issue

YKI AITOKIVI

16.04.2018.

#### 9.2 Other information

No additional information.

SECTION 10: Stability and reactivity		
10.1 Reactivity	See S	Section 10.5.
10.2 Chemical stability	Stabl	e under recommended storage and handling conditions (see Section 7).
10.3 Possibility of hazardous reactions	Unde	r normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	Avoid	extreme heat and freezing.
10.5 Incompatible materials	oxidiz stron	away from the following materials to prevent strong exothermic reactions: zing agents g acids g alkalis
10.6 Hazardous decomposition products		n exposed to high temperatures, hazardous decomposition products may be uced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.

## **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

There is no testdata available on the product itself.

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Long term exposure to spray mist may produce respiratory tract irritation. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

Acute toxicity

Not classified.

Irritation/Corrosion

Not classified.

Sensitization

May cause an allergic skin reaction.

The product contains sensitizing substances mentioned in sections 2 and 3.

Mutagenicity

Not classified.

Carcinogenicity

Not classified.

**Reproductive toxicity** 

Not classified.

Teratogenicity

Not classified.

Specific target organ toxicity (single exposure)

Not classified.

Specific target organ toxicity (repeated exposure)

Not classified.

Aspiration hazard Not classified.

#### 11.2 Information on other hazards

#### 11.2.1 Endocrine disrupting properties

Not applicable.

#### 11.2.2 Other information

10.02.2023 Date of previous issue

16.04.2018.

Not available.

## **SECTION 12: Ecological information**

Cological testing has not been conducted on this product. The product is classified as environmetally hazardous according to Regulation (EC) 1272/2008. Toxic to aquatic life with long lasting effects.

Do not allow to enter drains, water courses or soil.

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
<pre> 2-octyl-2H-isothiazol-3-one (OIT) </pre>	Acute EC50 0.00129 mg/l	Algae - Navicula pelliculosa	48 hours
	Acute EC50 0.013 mg/l	Crustaceans - Crassostrea virginica	96 hours
	Acute LC50 0.047 mg/l	Fish - Oncorhynchus mykiss	96 hours
	Chronic EC10 0.000224 mg/l	Algae - Navicula pelliculosa	48 hours
	Chronic NOEC 0.003 mg/l	Daphnia - Daphnia magna	21 days
	Chronic NOEC 0.0085 mg/l	Fish - Pimephales promelas	35 days
1,2-benzisothiazol-3(2H)- one (BIT)	Acute EC50 0.36 mg/l	Algae - Skeletonema costatum	72 hours
	Acute LC50 0.74 mg/l	Fish	96 hours

## 12.2 Persistence and degradability

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
Peaction mass of 5-chloro- 2-methyl-2H-isothiazol- 3-one and 2-methyl-2H- isothiazol-3-one (3:1) (C(M) IT/MIT (3:1))	-	-	Readily
2-octyl-2H-isothiazol-3-one (OIT)	-	-	Not readily

## 12.3 Bioaccumulative potential

Product/ingredient name	LogPow	Bioconcentration factor [BCF]	Potential
<pre>₽-octyl-2H-isothiazol-3-one (OIT)</pre>	2.45	-	low

#### 12.4 Mobility in soil

Soil/water partition	: Not available.
coefficient (Koc)	
Mobility	: Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Date of issue/Date of revision	10.02.2023 Date of previous issue	16.04.2018.	YKI AITOKIVI	
12.6 Endocrine disrupting properties	: Not applicable.			
12.7 Other adverse effects	: Not available.			

## **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

#### Product

Methods of disposal: Remove as much product as possible from the tools before cleaning. Liquid residue<br/>and cleaning liquids are hazardous waste and must not be emptied into drains or<br/>sewage system, but handled in accordance with national regulations. Product<br/>residues should be left at special companies which have permission for gathering<br/>this kind of wastes.

#### European waste catalogue (EWC)

Waste code	Waste designation
08 01 12	waste paint and varnish other than those mentioned in 08 01 11

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.

#### Packaging

Methods of disposal

: Empty packaging should be disposed of in accordance with national regulations.

Special precautions

: No additional information.

## **SECTION 14: Transport information**

	ADR/RID	IMDG	ΙΑΤΑ
